

Premier Vision

TE20-N9(30x) Installation

FEATURES

Battery: Accessible via a sliding door at the keypad base
Finishes: Satin Chrome Metal, ABS Bright Chrome/Black Velvet (optional)
OLED Screen: Provides enhanced user feedback

DIMENSIONS / MOUNTING INSTRUCTIONS

Cable hole diameter: 3/8" (.953mm) minimum
The hole must be properly deburred to avoid cable damage
The TE20-N9 (30x) mounts on horizontal (9 & 3 o'clock) studs, optional *MA2 adapter plate* required for vertical safe door mounting holes

The hole must be properly deburred to avoid cable damage

Affix the two #8-32 (or M4) mounting studs to the safe door
Open the battery door and extend the battery connector cable out through the door
Feed the cable through the cable/spindle hole on the safe door, then slide the keypad over the #8-32 (or M4) mounting studs and push down until it snaps on with a distinct "click"

Insert battery into keypad and slide the door closed
Use ONLY Energizer or Duracell ALKALINE or LITHIUM batteries

TE20-N9(30x)

Works With:

UR40-60
Universal
RotoBolt

EM20-60
Large
RotoBolt

EM30-60
MotorDrive
Lock

WHO is QSecurity?

QSecurity is owned by Clay Miller and April Truitt. Staff includes industry veterans Deanna DeBorde, Steve Robinson, Ellis Gibbs, Ryan Griffith, Lisa Young & others and is ever expanding. QSecurity Products, QSecurity Education and QTactical are all divisions of QSecurity Industries, the parent company.

WHAT is QSecurity?

QSecurity is the new name for a decades-old security technologies and education company headquartered in Nicholasville, Kentucky. QSecurity began as Lockmasters, Inc.®, the locksmith education company founded by Harry C. Miller, Jim Taylor and Leonard Singer in 1955. Clay Miller and his team took over operations from Harry Miller in 1981, expanding into tool and equipment sales to the trade in 1982. The following decade saw the birth of LockNet, SAVTA and the X0-7. In 2005, Mark Miller took over the tool & equipment division, moving it into a purpose-built location just up the road on John Watts Dr. Ever eager for expansion, Mark subsequently took over the Lockmasters Education Division in 2013. Clay Miller and his engineering team remained in the S. Main Street location, focused on R&D for the clandestine world as LTI: Lockmasters Technologies, Inc. and QTactical. Just prior to his passing in 2020, Clay Miller's son Mark Miller sold Lockmasters to the Dominus Group. As a contingency of the sale, the Miller family was compelled to relinquish their rights to the Lockmasters trademark – FOREVER. LTI was forced to rebrand, and Q Security was born.

WHY QSecurity?

The Millers have long been loyal James Bond fans. Who doesn't remember "Q," the Quartermaster of MI6, the British Secret Service? One of the most enduring characters throughout the Bond franchise, Q headed up Q Branch, the R&D division which supplied Bond with a stunning array of offensive and defensive gadgets over the years. When a rebrand became inevitable, the incorporation of "Q" seemed a novel but logical choice.

WHERE is QSecurity?

Over the years, Lockmasters, LSI and LTI have all called Nicholasville, Kentucky home. Naturally, Nicholasville is also now the headquarters for all QSecurity Industries divisions.

Conveniently located in the heart of the Bluegrass region, QSecurity is proud to have LockNet, Sargent & Greenleaf, Lockmasters and MBAUSA as local neighbors.

NL Lock - What's the connection?

Legendary inventors Nick Gartner and Clay Miller have worked both together and separately in the high-security safe lock industry since the late 1960s when Harry C. Miller hired Nick at Sargent & Greenleaf in Rochester, NY. Nick eventually left S&G to found LaGard, where he developed many industry firsts: the first electronic safe lock, the HPC 1200 key machine, the 2200 key lock for safes, the SmartGard, and many others.

With Nick's health declining, in early 2023 he and Clay Miller entered discussions regarding the future of NL Lock. In late August, they inked a deal to transfer the company assets to QSecurityIndustries, and on September 5, 2023, Nick passed away, knowing his brainchild had a secure future with an industry veteran and friend who would take his innovations forward.
